

**Curious About What We Do?**

Parent Child Centers (PCCs) are a network of 15 community-based non-profit organizations, serving all of Vermont. The purpose of each PCC is to provide support and education to families with young children. We use the Strengthening Families Protective Factors Framework with the goal to help all Vermont families get off to a healthy start, promote well-being and build on family strengths.

**Strengthening Families Framework used by SAPCC:**

Strengthening Families™ is a research-informed approach to increase family strengths, enhance child development and reduce the likelihood of child abuse and neglect. It is based on engaging families, programs and communities in building five protective factors:

- Parental resilience
- Social connections
- Knowledge of parenting and child development
- Concrete support in times of need
- Social and emotional competence of children
